TECHNOLOGY SOLUTIONS FOR PLASTIC AND COMPOSITE MATERIALS

K is a not-to-be-missed opportunity to get a close-up of the amazing advantages of the **MyHSD** platform that allows us to provide our customers with a huge range of services, in our booth you can also discover the brand new **ES320** range with automatic tool change and ISO20 coupling.

HSD offers a full range of technologies that can meet all market demands and handle all machining processes. An extensive selection of high quality products, consisting of electrospindles with automatic and manual tool change, C-axes, bi-rotary heads and multifunction units, as well as a wide selection of aggregates. Each product is the result of a careful study of the market and an in-depth knowledge of the requirements of the companies that work with plastic, composite and thermoforming materials.

We look forward to seeing you!
